

CHISAGO COUNTY DEATHS WITH UNKNOWN BURIALS

On the following pages are the names of those persons who have "UNKNOWN" written in the "Cemetery" column. In most cases they are persons who are known to have died in Chisago County, but their names were not listed when the cemetery transcriptions were made. There could be several reasons why they were not listed: 1. The monument or footstone has disappeared (sunk, vandalized, broken); 2. The stone could have been overlooked by the person doing the transcribing; 3. The name could have been overlooked during the alphabetizing of the names in that particular cemetery; 4. The person is in an unmarked grave; 5. The person may have been buried outside of the county.

Where I have heard from good sources that persons are in unmarked graves, I have indicated with a "U" that they are in unmarked graves in whatever cemetery is listed.

To help in further identifying these burials, I have added whatever information I could find in the death records, obituaries, biographies, etc. I have repeated the birth and death dates and added the township where the persons died, added spouses, parents or children if that information was available, added the name of the newspaper and date if an obituary was found, and sometimes guessed as to the most logical cemetery where a person might be buried.

Most of my efforts have been directed toward those persons who died before 1900. County death records start in 1870. I have checked each person's death against the previously-published cemetery records. If they are not found in that list, they are recorded here. There is some ambiguity in the information found regarding burials places. For example, there might be a notation which says "buried Center City," or "buried North Branch," or "Green Lake Cemetery." That is not enough information to narrow it down to one cemetery.

There are a few cases where a person is listed here because a spouse or children are buried in a particular cemetery. It is likely that the person is buried in the same cemetery, but one cannot definitely make that assertion, since a spouse, for example, could have moved out of the county, remarried, and died in some other part of the country.

We know that there are hundreds of burials in the county which we cannot account for. This list will add birth and death dates for persons not in the cemetery listings, and can possibly help in further cemetery research. Persons reading this may know of the burial places of their ancestors who may not be listed in any cemetery, or who might be on the "unknown" list. I would appreciate knowing of such instances so that our records may be as complete and accurate as possible.

I have made some late discoveries of cemeteries and have added that information, so that in a few instances the burial place will be listed along with the other information.

The listings in this book will total over 19,000 persons in the cemetery list and over 2,000 in the "Unknown" category. As far as recent burials are concerned, I have added all persons whose names have been published in the Chisago County Press, and for whom a county cemetery is listed.

In the listing which follows I am using as many abbreviations as possible to save space. They are as follows: bur. - buried, d. - died, b. - born, par. - parents, s. - son, dtr. - daughter, ch. - child, children, obit. - obituary, twp. - township, m. - married, w. - wife, h. - husband, cern. - cemetery, emig. - emigrated

Robert Porter of Center City has provided me with the newspaper names and obituary dates whenever such information is noted in the listings which follow. Bob was also the person responsible for getting the whole cemetery project started.

PERSONS NOT FOUND IN COUNTY CEMETERIES

Name, dates of birth & death, township, parents, obituary, date arrived in county, place born, etc.

ABBOTT, Gustaf David. 23 Apr. 1884-30 Apr. 1884, d. Wyoming, par. D.W. & Mathilda.
